Career Objective:

I aim to apply my technical knowledge, problem-solving skills, and continuous learning mindset to contribute effectively in a dynamic and innovative work environment. My goal is to grow as a professional by working on real-world projects, enhancing my abilities in software development, AI, and system design, while also adding value to the organization I work with.

Career Summary:

I am a highly motivated and detail-oriented Computer Science student with a strong foundation in programming, algorithms, and system design. I have hands-on experience in various projects involving web development, data structures, and machine learning. With a collaborative mindset and a strong interest in learning emerging technologies, I am eager to start my career journey in the tech industry. I possess excellent analytical skills, teamwork capability, and adaptability to fast-paced environments.

Special Qualification:

Proficient in Python, C/C++, JavaScript with a strong understanding of Data Structures & Algorithms, OOP principles, and basic knowledge of Machine Learning and AI; skilled in Git/GitHub, a fast learner with excellent teamwork and communication abilities, and adaptable to new technologies.
